ABOUT ME

I am a Software Development student passionate about building functional, web and mobile solutions. I combine a solid foundation in full-stack web engineering with digital marketing and cloud productivity insights. My primary focus is Full-Stack Web Development, specializing in the MERN Stack and relational databases I have hands-on experience building responsive and attractive UI with HTML5, CSS3, React, Bootstrap, Material UI, and Tailwind CSS, as well as developing mobile app solutions with React Native, Flutter and IoT embedded systems. Beyond core development, I am eager to secure an Internship or Developer position where I can apply my MERN stack and software engineering skills to real-world projects while growing under expert mentorship

EDUCATION

- ADVANCE DIPLOMA IN SOFTWARE ENGINEERING
  APTECH, KARACHI
- GCE ALEVELS
  Cambridge Private Candidate
- GCE OLEVELS
  Beaconhouse Gulshan Cambridge

SKILLS

Programming & Web Development
HTML5 • CSS3 • JavaScript • React.js • Node.js • Express.js

MERN Stack & Databases
MongoDB • Mongoose • REST APIs • CRUD Operations • SQL SERVER

Development Tools
GitHub • Android Studio • Visual Studio Code • Google Colab • Thonny • Arduino IDE

Design & Productivity Tools
Canva • Google Flow • Capcut • Illustrator • Microsoft Designer • Wokio • TinkerCAD • MS Word • MS Excel • MS PowerPoint

Professional Strengths
Teaching & Mentoring • Creative Thinking • Classroom Management • Teamwork • Problem Solving • UI/UX Designing

CERTIFICATIONS

CLASSROOM MANAGEMENT

- **Google Certified Educator LEVEL1 & LEVEL2** | *Google* | *Dec 2025* |
  Demonstrated fundamental proficiency and knowledge in utilizing Google for Education tools to enhance digital productivity, streamline workflows, and enable effective collaboration
- **Introduction to Data Analysis using Ms Excel** | *Google* | *Jul 2024* |
  Developed foundational skills in Microsoft Excel, including data entry, formatting, basic formulas, functions, and spreadsheet management for efficient data organization and analysis.

WEB DEVELOPMENT, DESIGN & Other Competition

- **IOT IGNITE** | *Contest Azam, Aptech Shaha-e-Faisal* | *Aug 2026* |
  Recognized for technical creativity and practical execution in building smart IoT system prototypes using microcontrollers, sensors, and hardware-cloud integrations.

- **Speaqtar AI** | *Aptech Vison, Aptech Shaha-e-Faisal* | *May 2026* |

MUHAMMAD RAYAN ASIF

GITHUB | **LINKEDIN** | **PORTFOLIO**

Awarded Certificate of Best Project at Aptech Vision 2026 in recognition of outstanding creativity, innovative problem-solving, and software execution in developing a real-world tech solution.

- **Digital Marketing** | *DigiSkills* | *Jul 2024* |
  Successful completion of Digital Marketing training under the DigiSkills Training Program, covering essential concepts and practical skills required to promote products, services, and brands through digital platforms. It reflects knowledge of online marketing strategies, digital communication, and tools used to reach and engage target audiences effectively.

- **Freelancing** | *DigiSkills* | *Jul 2024* |
  trained via DigiSkills (Virtual University) in digital client acquisition, profile optimization across freelance platforms (Upwork & Fiverr), high-converting proposal drafting, and professional client relationship management.

- **Build a free website using WordPress** | *Coursera* | *Oct 2024* |
  Learned to create and customize websites using WordPress, including theme selection, page building, plugin integration, and basic website management

PROJECTS

- **STUDENT BUDGET MANAGER** | *Oct 2026* |
  Developed a student-focused expense management website using MERN stack technologies which includes MongoDb, Express.Js, React.js, Node.js platform to track daily transactions, manage budgets, categorize expenses, and monitor spending through an interactive dashboard with report feature that students can see their monthly yearly spendings and have an idea of their spendings included Ai suggestions for suggestions
- **HOTEL MANAGEMENT SYSTEM** | *jun 2026* |
  Developed a responsive hotel management website using MERN stack technologies which includes MongoDb, Express.Js, React.js, Node.js and Tailwind CSS, featuring an intuitive user interface and essential hotel booking and management functionalities.
- **LAUNDRY MANAGEMENT SYSTEM**| *Jun 2025* |
  A .NET-based laundry management application designed to streamline laundry operations and simplify the management of customers, services, and daily business activities.
- **WEB QUIZ APP** | *Dec 2024* |
  An interactive web development quiz app featuring HTML, CSS, and JavaScript questions, a modern interface, and an engaging quiz experience.
